## New Members

On December 2nd, the actives and Phikeias traveled to Oxford to do their fall initiation. We initiated a total of 8 guys this semester, all of which are willing and eager to learn and work. They started off their pledge ship as a group of 8 guys and over the semester turned into "one man." They set up a successful social event with a sororities pledge class and also set up a fundraiser. Their fundraiser was named "Desperate Housemen" and was a date auction of all the Phikeias and some of the actives. This was one of the well thought out fundraisers that Phi Delta Theta has seen in many years. It got coverage from the Ball State Daily News and other online news media. To the right

is a picture of the new members and their Phikeia Educators from the trip to Oxford. We are excited and looking forward as a chapter to see what these new men can do as actives. We would like to thank Ben Dictus, our leadership consultant for helping us set up our Initiation and GHQ and we would also like to thank Jarrod

Murray and Johnny Velasquez for participating in the ceremony.

## Ritual Equipment

As some of you may know, the ritual equipment that we are using is probably the same that most of you used when you were active. The robes look awful and are depressing to look at and wear. We are looking into replacing some of our worst ritual equipment, but as you know this costs money. I have asked Headquarters to send a list of prices of all the equipment, and was my hope to be able to provide you with the exact price of these pieces. The robes cost approximately \$80 each for the ritual ones and \$60 for the plain black ones. These are the things we need the most, but we are looking to upgrade pretty much all of the pieces. Any donations made from alumni will be put toward buying new ritual equipment. We appreciate all the support provided by our alumni in the past and look forward to good relations in the future. Please send any and all donations to the address to the right.
